

ST Fibre Patch Panel

The Connectix Fibre Patch Panel is available with a range of port densities. The fibre patch panels are manufactured from mild steel and finished in a black powder coating. They are suitable for mounting in 19" cabinets.

The panels feature fully adjustable mounting brackets, numbered

adaptor ports and a range of panel knock-outs to suit common gland sizes. The panels include a sliding tray for easy access to splices.

Fibre Panels are supplied fully loaded and complete with splice management. Unloaded versions and other connect or styles are available upon request.

Features & Benefits

- Easy access to splices from the front of the rack
- High quality rigid mild steel construction
- Rear cable gland knock outs
- Numbered front panel
- Adjustable mounting brackets for flush or recessed fitting
- Fibre management kits included
